Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE -3- MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, such period shall, by default, expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).

Office Action Summary

Art Unit: 1642

DETAILED ACTION

1. Applicant's remarks filed December 22, 2000 (Paper No: 23/D) is acknowledged. Accordingly, claims 41 and 45 have been amended, 53-62 have been cancelled and 64-73 have been added. It is not clear if Applicant intended to cancel claim 63 or not. In the body of the arguments Applicant states that 53-63 have been cancelled, but have not instructed it to be done in the amendment. Clarification is requested. Claims 41, 45, 64-71 are being examined.

Response to Arguments

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 41, 45, and new claims 64-71 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is not clear in claims 41 and 45 if the "an isolated caspase or procaspase" is the same caspase or procaspase as that in immature thymocytes. It is also not clear from the claims as recited how a method of identifying an agent which enhances the activity of a caspase or procaspase expressed in immature thymocytes (preamble) is connected to steps (a) and (b) in claim 41 or to the conclusion in claim 45. Is Applicant claiming a new caspase or procaspase in immature thymocytes that is different from the one taught by Fearnhead?

4. Rejection of claims 41, 45 and new claims 64-71 under 35 U.S.C. 103(a) is maintained for reasons set forth in the previous office action. Applicant's arguments have been reviewed and noted, but they are not persuasive. Applicant argues that Fearnhead et al do not teach a method of enhancing procaspase or caspase activity, or the desirability of identifying agents which do so. Applicant argues that the thrust of Fearnhead et al work was aimed at understanding the stages of apoptosis and that they concluded that apoptosis in thymocytes was regulated by different

proteases. Applicant also states that Fearnhead et al concluded that apoptosis induced by different stimuli was inhibited/potentiated by TLCK and Z-VAD. Applicant continues to argue that Fearnhead et al do not teach or suggest compounds used in their studies affect an isolated caspase or procaspase. It is submitted that Fearnhead teaches the concept that enhancing caspase activity by agents such as dexamethasone etc. was also directly tied to enhancement of apoptosis in immature thymocytes. Applicant fails to recognize that Fearnhead et al teaching clearly suggest that apoptosis in immature thymocytes was associated with caspase/procaspase activity. Such conclusion was based on the use of known agents that affect caspase/procaspase activity. Though Fearnhead may not teach contacting isolated caspase with an agent and assess its enhancing effect on caspases, it would have been obvious to one of ordinary skill in the art at the time of the claimed invention to extend these studies to look for agents that enhance the activity of isolated caspase/procaspase.

5. No claims are allowed.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for response to this final action is set to expire **THREE MONTHS** from the date of this action. In the event a first response is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for response expire later than **SIX MONTHS** from the date of this final action.

7. Papers related to this application may be submitted to Group 1640 by facsimile transmission. Papers should be faxed to Group 1640 via the PTO Fax Center located in Crystal Mall 1. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). The CM1 Fax Center telephone number is (703) 308-4242 or (703) 305-3014.
